

FOOD SAFETY AND QUALITY POLICY

Food Safety is: Every product contains the things it should contain and nothing that it shouldn't.

Fosters Bakery (Staincross) Limited manufactures and supplies frozen and ambient breads, morning goods and confectionery products. We are committed to provide our customers with a wide range of safe, legal and authentic bakery products to meet or exceed their expectations offering the highest quality and value for money.

We recognise that the continued success of the company depends on the supply of competitive products to meet our customers' demands. Consequently, the quality of our products must be of the highest possible standards made by a fully trained and motivated workforce.

To achieve this, we

- Communicate food safety requirements to suppliers, contractors, customers and consumers by following specifications for ingredients and packaging materials, product storage and consumer guidelines.
- Adhere to all pre-requisite programs in the Food Safety and Quality Manual. Follow good manufacturing practices and good hygiene practices under the control of our HACCP based manufacturing standards.
- Identify and cater to resource needs and carry out training to staff and workers with respect to food safety, legality, authenticity and quality and to create a strong food safety culture within our organisation
- Include food safety and quality strategies in the annual business planning process to ensure that food safety and quality remains an integral part of operations.
- The systems are subjected to constant review and where required, updated to form part of our due diligence programme.

As evidence of our commitment will pursue, obtain and hold certification to BRC Global Standard for Food Safety.

John Foster MBE DUniv DL
Managing Director
Fosters Bakery (Staincross) Limited
