### TONNES OF ELECTRICAL WASTE COLLECTED FOR FREE

Fourteen companies in Barnsley and Rotherham responded to SR Waste Recycling's offer to collect electrical waste for free on two pre-arranged collection days during July. Simon Robinson (MD, SR Waste Recycling) said: "We normally charge for collections but felt it would be good to encourage more people to recycle in this way – and it seems to have worked. We estimate that we collected more than five tonnes of waste over the two days, which is good for the businesses and for the environment." Material collected included IT equipment from Fosters Bakery of Barnsley. John Foster (MD, Fosters Bakery) said: "I like the way SR Waste Recycling takes the trouble to recycle as much as possible rather than it ending up in a landfill site somewhere."
